The world is not nearly as bright of a place when a light like Don's goes out. I've missed him every day since retired. He was a singular personality, when they made that man they really did throw away the mold. I am proud to say that he was one of the hardest workers I ever had, and more than anything, that he was my friend. God speed my friend. I know you've found a place where the Muskie are always biting, the races are always on, and none of your neighbors are pain in the asses!! Heaven is for real. Dave Schlessinger
